SUBLIMATED TEE SHIRTS

Printed In The USA

Limelight has become expert in sublimating finished tee-shirts. There are just two name brand shirt styles that are functional for almost perfect ink coverage. We will accept 100% polyester shirts from our customers but cannot insure the quality we enjoy on our preferred shirts. Customers must supply 10% overage for each size shirt due to the normal sublimation reject rates. Even on the perfect shirt, sublimation is not perfect and every shirt will have a few minor flaws. Limelight offers spot sublimation or less than full coverage sublimation on tee shirts but the charges will remain the same as listed below.

These sublimated socks are sure to get your brand out there and on the move no matter where their day takes them. Normally when sublimating on white socks, the white material from the interior of the sock is visible when worn. The interior of the sock is black, resulting in black lines visible between your art - making this front and back rendering the perfect solution for darker imprints. **One size fits most.**
